REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Upon further consideration of the prior art of record, the combination of Myers et al. in view of Moradi-Araghi et al. fails to teach the invention as presently claimed. Myers et al. discloses a method for sealing porous and fractured formations during drilling of the well by using a composition capable of stabilizing boreholes; the sealant composition gels within the formation. The reference, however, fails to teach the step of pumping, after placement of the drilling fluid in the formation, an activator fluid to accelerate the gelling of the composition. Therefore, the combination of Myers et al. in view of Moradi-Araghi et al. fails to teach the invention as claimed, wherein an activator fluid is pumped into the well during a method of drilling a well.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Information Disclosure Statement

2. IDS receipt date 07/10/2006 was revised to correct the SPE document number provided as non-patent literature from SPE 50572 to SPE 50752 which is the number of the SPE document that was provided. The copyright date on the document was also added to the IDS.
